Veneentekijäntie 6, 00210 Helsinki

BAVARIA 34/3 CRUISER YEAR 2000

The Bavaria 34/3 Cruiser is a spacious and practical family sailing yacht, combining comfortable three-cabin accommodation, enjoyable sailing characteristics and an easily handled sail plan.

During 2020–2021, the yacht underwent extensive refurbishment, including reinforcement of the hull-to-deck joint, improved stanchion attachments, renewal of interior panels and replacement of all mattresses and upholstery.

Following a grounding incident in 2025, the yacht underwent comprehensive structural repairs at Leevene, one of Finland's most respected specialist yacht repair yards. The work included keel removal and reinstallation, hull repairs and reinforcement of the internal structural grid. According to the owner, the repaired structure is now stronger than when originally built.

Location:
Savonlinna, Finland

Measurements:
Length: 10,20m
Beam: 3,48m
Draught: 1,85m
Displacement: 5000kg

Hull
Color: White with blue waterline stripe
Standard keel

Motor:
Volvo Penta MD2020 -00
19hp
Three blade folding propeller + one fixed two blade propeller as spare
Running hours approx. 3190h
Sail drive, bellow changed 2022

Upgrades and repairs:
2021 - Comprehensive interior air-quality and moisture remediation
Extensive interior refurbishment, including resealing and securing the toe rail / hull-to-deck joint and reinforcement of stanchion bases. All interior hull lining panels were mould-treated and cleaned, with selected panels replaced. All battens and interior lining materials were renewed with mould-free materials. Supporting refurbishment report available.
2021 - New cabin mattresses and cushions
Complete replacement of the yacht's mattresses and cushions by Kaakon Verhoilu, Lappeenranta.

2022 - Engine and saildrive
Thorough engine servicing and inspection; saildrive diaphragm / hull penetration seal renewed.

2023 - Electrical system, lighting and running rigging
New higher-output solar panel system; numerous running rigging lines replaced, including new Dyneema reefing lines; all interior ceiling lights replaced with LED fixtures.

2024 - Underwater hull refurbishment
Underwater hull refurbishment carried out by Marina Saimaaportti, Lappeenranta.

2025 - Teak deck
Part of the teak deck renewed by Leevene, Helsinki. Supporting documentation available.

2025–2026 - Grounding damage and structural repairs
Following a grounding incident in 2025, comprehensive repairs were carried out by Leevene, Helsinki, a highly regarded Finnish specialist marine damage-repair yard. The documented work included keel removal and reinstallation, keel-bolt cleaning and thread restoration, keel repairs, hull laminate repairs and reinforcement of the internal structural grid and damaged stiffeners. Leevene's report dated 24 March 2026 records 213 labour hours and includes extensive photographs.

2026 - Service batteries
Three service batteries renewed.

Owner's assessment
Following the structural repairs and reinforcement, the owner considers the repaired structure stronger than when new. This assessment has not been independently verified by comparative structural testing.
