

Aquador 28HT, 2009

Measurements:

Length 8,8 m

Beam 3,1 m

Draft 0,9 m

Dry weight 4350 kg

Tank capacities:

Water tank: 95L

Diesel tank: 380L

Holding tank: 45L

Engine:

MerCruiser CMD QSD 4.2 320hp

Running hours 900h

MerCruiser Bravo III drive with a duo-prop stainless steel propeller

Drive system renewed 2014, comprehensive refit 2023

Transom shield replaced 2016

Drive showers installed, cooling the drive system during operation

Electronics & Technique:

Chartplotter: Simrad Northstar 9" with North and Baltic seas maps

GPS

Refrigerator: Wallas ASU 65 litres with a freezer

Stove: Wallas 85DU 2-burner ceramic (diesel)

Bow thruster: Lewmar

Shore power, Mastervolt battery charger and 25m charging cable

Mattresses: Clean mattresses, sofas and seats, a separate mattress topper in the forward berth.

Stereo: Sony with usb and a remote control, 4 speakers

Shower in the bathroom and swim platform

VHF: Simrad Northstar

WC: Freshwater marine toilet with a holding tank

Other:

Aftermarket: High-quality Mastervolt battery charging, shore power charging, and bilge pump operation monitoring gauges. Gauges for monitoring freshwater and holding tank levels.

Starter battery 75 Ah replaced in 2022. Navigation lights (red and green) replaced with LED lights. Hot water heater (water heated by engine circulation and shore power), cockpit cover for the windscreen, removable bow ladder, automatic and manual bilge pump, 12V outlets and TV antenna sockets in all areas, automatic fire suppression system in the engine compartment. The hatch lid in the forward cabin has a roll-up blackout curtain/mosquito net. Removable insect screens in portlight windows.

Engine, drive system, bow thruster, etc., have been serviced annually by a professional according to the maintenance schedule, and a service log is available. The boat has been polished and UV-protected every spring, which is why the dark blue sides look like they've just come from the factory (no fading). The hull has been "antifouled" every spring.

Included are inspection gear (e.g., fenders, anchor, LED torch, fire extinguishers, life jackets, and rescue ring).

The boat's technology and drive system have been updated between 2023 and 2024 at a total cost of approximately €18,000, including:

- Replacement of the interior flooring with wear-resistant laminate resembling teak (value approximately €7,000),
- Basic refurbishment of the drive system,
- AGM service batteries 2 x 180 Ah (totaling €1,000) replaced in 2023,
- Replacement of the toilet pump and canopy (€1,700) in 2024,
- Teak deck refurbished in 2024.
- Heater renewed in 2023 (cost: €2300). Control panel and thermostat located in the forward cabin. The heater draws fuel directly from the boat's diesel tank.

Capacity for 8 people, with berths for 6: forward cabin for two with a door and a double bed. The aft seating area has two tables of different sizes, and by lowering the larger table, it can be converted into a double bed.

These are the facts given by the Seller and therefore Blue Ocean Oy reserves the rights to changes to this equipment list.
