

Etap 28s, 2008

The Etap 28s is a distinctive and modern design sailboat, crafted with high quality by the Belgian company Etap Yachting. It is suitable for both archipelago sailing and offshore. Ideal for nature harbors. This yacht features a shallow (1,10m) tandem keel, an unsinkable hull, and an easy-to-maintain cork deck.

The boat has been very well maintained and carefully serviced. The engine has less than 500 hours of use and has been properly serviced. Rigging and sails are both in good condition.

The Etap is ideal for solo sailors, couples, or small families. The cockpit is sheltered, and the boat is easy to handle. Self-tailing winches make maneuvers simple and pleasant. The boat handles calmly, making it an excellent choice for novice sailors.

The living conditions on board are excellent: the cabin is modern, bright, and spacious. The feeling of light is enhanced by a high-quality light wood interior. A large forward hatch ensures good ventilation. The galley is compact but practical, and equipped to meet the needs of even a larger crew. The ensemble is completed by a full set of Etap tableware.

Price: 49.000€ VAT paid

Location: Salo (close to Turku/Åbo), Finland
