

**Beneteau 50 manufactured 1998 / registered 1999**

Beneteau 50 offers comfort, stability, and reliability both at sea and in port, without sacrificing performance. It is an excellent yacht for those who enjoy coastal and ocean sailing, but thanks to its shallow draft (1.85m), it is also well-suited for archipelago cruising. Sailing is effortless, and the bow thruster makes maneuvering in tight harbors easy.

This particular vessel has been privately owned in Finland, with only one owner since new. It has been carefully maintained and updated as needed. The sails are fresh, and the hull has been repainted. The teak deck is also in excellent condition.

The interior is spacious, bright, and meticulously kept. There are three cabins, comfortably accommodating a crew of up to eight. The saloon is ideal for hosting a larger group, and the spacious galley is a pleasure to cook in. There is also air conditioning in the forward cabin and saloon.
