

Jeanneau NC9, 2018

Elegant and streamlined, meticulously maintained motorboat from the first owner

The Jeanneau NC9 is a modern motor cruiser built by the French shipyard Jeanneau with decades of experience. It's the perfect choice if you're looking for a livable boat for day trips or longer adventures with family or friends. This boat is located in Dubrovnik, Croatia and is owned by a Finn. VAT is paid in EU country and there is also a possibility to get a mooring place.

The boat is enjoyable not only for passengers but also for the captain. It behaves calmly even in tighter maneuvers, and the helm is designed with the skipper's comfort in mind. The engine has only 83 running hours, and the service history is fully documented. A bow thruster makes maneuvering in the harbor easier.

Jeanneau has really focused on livability, offering excellent space for four adults, with room in the saloon for an additional couple of children to sleep comfortably. The bow features a spacious master cabin, and on the port side, there's a guest cabin. The bathroom is bright, with plenty of headroom. The galley is equipped with an oven-stove, refrigerator, and ample storage. Up to five adults can easily enjoy a gourmet meal in the bright, air-conditioned saloon.

There is plenty of space on the foredeck to enjoy the sun, and it's equipped with an anchor winch. The aft deck is also ideal for sunbathing, with easy access to the boat via the stern. Between the aft deck and the saloon, there are sliding glass doors, enhancing the sense of space inside the saloon.

Price: 160.000€ VAT paid

Location: Dubrovnik, Croatia

Measurements:
