

Marino Barracuda 1999

The Marino Barracuda is a spacious and reliable cruising motorboat equipped with two cabins. It has received several boating industry awards and quickly became a public favorite after its launch. It has been praised especially for its excellent handling characteristics, interior spaces, and sense of quality.

The boat is in very tidy condition for its age, with interior wooden surfaces shining with a fine lacquer finish. The engine was replaced in 2018 and has only 462 operating hours. Additionally, the bow thruster was renewed in 2024.

The boat is well-equipped and offers comfortable accommodation for up to six people. The interior is spacious, and a large roof hatch enhances the sense of openness. The aft deck is perfect for enjoying sunny days, and in case of bad weather, the diesel heater keeps the cabin warm and dries rain gear in the WC.

Price: 69.000€ VAT paid
