

Royal Yachts 45, 1987

Royal Yachts 45 is a unique motor yacht in great condition with new powerful and fuel efficient engines, re-powered in 2022. Amazing wooden interior, full teak deck and swim platform, cozy and spacious interior planning, ceiling height of 2 meters and higher, plenty of storage space, everything for long journeys and permanent life aboard. Boat has mostly sailed in fresh water of Stockholm's internal lakes, and north of the gulf of Bothnia, stored in the hangar from October until May. Always meticulously serviced with oils, liquids and filters, polished and waxed yearly, new bottom paint in spring 2024.

Royal Yachts brand was started back in the day to compete with Storebro, as a result you have an amazing hull and build quality, interior and equipment. Huge machine room, clean, tidy and comfortable to work in, it was totally rebuilt during the engines' replacement.
