

Hallberg-Rassy 37, 2004

The Hallberg-Rassy 37, designed by Germán Frers, combines excellent sailing performance, exceptional quality, and spacious interiors. These features ensure comfort whether you're embarking on long offshore voyages or enjoying relaxed coastal cruising.

This boat, being sold by its first owner, is like new, well-equipped, and meticulously maintained. During winters, it has been stored in a heated hall.

The interior is both classic and cozy, with a high standard of craftsmanship. It features two spacious cabins, a bright saloon, a bathroom, a navigation station, and a U-shaped galley that is practical even in rough weather. The living spaces make this boat ideal for two couples or a small family. The cushions are upholstered in high-quality Alcantara fabric and are in immaculate condition. The engine compartment is easily accessible, simplifying maintenance tasks.

In challenging conditions, the boat remains stable and well-balanced. The central cockpit provides excellent visibility, protection from the elements, and enhanced safety in rough weather. Thanks to the cockpit's placement, the aft cabin offers an impressive amount of space. Single-handed sailing is a breeze, as almost all lines are led to the cockpit.

This classically beautiful and almost-new yacht offers a truly enjoyable sailing experience!

Price: 210.000€, VAT paid

Location: Rymättylä, Finland

Measurements:

Hull length: 11,32m

Beam: 3,55m

Draught: 1,90m
