

Nauticat 37, 2012

Nauticat 37 is a high-quality cruising sailboat built by the Finnish yard Nauticat Yachts. It combines a pilothouse design with good sailing performance. This particular vessel is in outstanding condition and has been extensively upgraded in recent years.

The boat is equipped with a high-performance deep keel and a powerful rig. The protected cockpit enhances the feeling of safety, but in harsh weather conditions, you can also steer from the inside helm station. Electric winches and electric furler make sailing easy even with a small crew, and new, high-quality sails complete the package.

The interior is beautifully finished and incredibly spacious. The pilothouse offers great visibility and plenty of natural light. The U-shaped seating area comfortably accommodates a large group for dining. The galley is spacious and well-equipped. The aft cabin features a luxurious double berth and a private head, while the forward cabin has a V-shaped double berth and an additional head.

Price: 295.000€, VAT paid

Location: southwestern Finland

Measurements:

Hull length: 11,2m

Beam: 3,6m

Draught: 1,85m

Displacement: 9500kg (empty)

Ballast: 3050kg

Sail area: approximately 66m²

Mast height: 16,7m

Engine:

Yanmar 4JH5E, 54 hp, ym. 2012, 1400 running hours
propeller Flexofold, 3-bladed (year 2023)

Tank capacities:

Water 440L

Diesel 335L

Holding tanks (separate holding tanks in bow and aft WC's) 70L each, 140L in total

Equipment:

Chartplotter, Raymarine e95 on deck, Raymarine Axiom 12" in the pilothouse (year 2024)
