

Targa 31, 2007

Targa 31 is a motorboat manufactured by the Finnish Botnia Marin shipyard, known for its excellent seaworthiness, high-quality construction, and versatile features. Targa is perfectly suited for varying sea conditions and has even been called the “SUV of the seas.” This particular boat is in great condition and it has been well-maintained, with regular and comprehensive updates. The maintenance history is fully documented, and the boat has always been stored in a heated hall during winter.

The superior handling characteristics of Targa boats, even in demanding conditions, have become legendary. Thanks to its deep-V hull, the boat remains stable in waves, providing a smooth and comfortable ride, even in strong winds and choppy waters. Despite rough seas, the cabin remains quiet. Visibility from the helm is excellent, and in good weather, the flybridge offers a fun driving experience.

This boat is also well-suited for longer trips. The interior is practical, finely finished, and designed for comfortable cruising. The two separate cabins provide ample accommodation, while the galley, located in the salon, offers good cooking facilities. The bar cabinet adds the final touch to this well-equipped motorboat.

Price: 149.000€, EU-VAT paid

Location: Turku, Finland

Measurements:

Hull length: 10,62m

Beam: 3,15m

Draught: 0,85m

Displacement: 6300 kg

Engines:

2 x Volvo Penta D4-260, ym. 2007, 1085 running hours

DuoProp propellers (year 2021)

fully serviced and well-maintained
