

Delta 29 SW, 2010

Delta 29 SW is a sleek motorboat built by the Swedish manufacturer Delta Powerboats, known especially for its modern design and fuel efficiency. It's an excellent choice as a commuter boat for long distances as well as a cruising boat for a small crew.

In terms of handling, Delta has been described as precise and sporty. Its deep-V hull cuts through waves effectively, offering a smooth ride even in more challenging conditions. Cruising speed is around 30 knots, and the top speed is approximately 40 knots. At cruising speed, fuel consumption is 1.1 liters per nautical mile.

The bow cabin accommodates two adults in a double berth and also features a toilet. In front of the helm, there are two longitudinal sofas that provide a comfortable ride for passengers. Visibility from the helm is excellent, and the panoramic sunroof allows for comfortable standing operation.

Price: 85.000€, VAT paid

Location: Turku, Finland

Measurements:

Hull length: 9,55m

Beam: 2,70m

Draught: 1,10m

Displacement: 2600 kg (dryweight)
