

Hanse 385, 2013

Hanse 385 is a modern and spacious cruising yacht. It is easy to handle and comfortable to sail, yet its performance does not disappoint. This boat is an excellent choice for both weekend sailing and longer voyages. Sold by its second owner, this well-maintained yacht has received regular equipment upgrades. The boat is easy to sail single-handed or with a small crew, as all running rigging lines are led to the cockpit in front of the helm stations. The hull is designed for speed and stability, performing well in both light and strong winds. The large cockpit provides plenty of space for sailing and enjoying life in the harbor. Inside, Hanse is cozy, spacious, and filled with natural light. All cabins offer full standing height, and the hull windows enhance the sense of space. The yacht features three double cabins, and the saloon sofa can also be used as an extra berth. The galley is functional and well-equipped, while the saloon table comfortably seats up to eight people.
