

CANTIERI OPERA 60 YEAR 2008, COMPLETELY REFITTED IN 2015-16

One of the largest RIB boats ever built – very rarely available.

This boat was originally used as a demo vessel by the manufacturer, with only two units ever produced with bigger engines. Totally 38 built and 36 are with smaller engines. The RIB yacht has been customized and fully refitted/rebuilt in 2015–2016 to meet the current owner's needs. The refit and maintenance history are thoroughly documented.

During the refit, the hull was kevlar reinforced, engines and drives were removed and completely overhauled. The boat was entirely repainted, new Hypalon tubes were installed, the navigation equipment was replaced, a new cork deck was added, and the upholstery and fabrics were renewed. A new audio system was also installed.

The boat is certified for up to 45 passengers inshore and 35 offshore, making it ideal for charter use as well. VAT paid.

Location:

Raasepori, Finland

Measurements:

Length: 18,40m

Beam: 5,60m

Draught: 0,8m

Displacement: 14000kg

Height from the waterline: 4,2m

Hull

Kevlar/fiberglass and reinforcement – 2016-2016

Color: Black – AWLCraft 2000 jet black + 4 x clear coats on top – 2015-2016

Hypalon: 1670 DTEX, black – 2015-2016
