

Finngulf 41, 2004

Finngulf 41 is a high-quality, performance cruising yacht, handcrafted in Finland. The boat is in excellent condition, with all annual maintenance and upkeep carried out meticulously. Between 2021 and 2025, numerous major upgrades have been made, including a comprehensive renewal of the onboard electronics. The boat has also undergone a condition survey in 2025.

Finngulf 41 has been designed with high-performance sailing and unforgettable experiences in mind—whether the crew consists of keen racers or cruising families. All halyards are led back to the cockpit, making the boat easy to handle even with a small crew. The boat is equipped with a comprehensive set of cruising sails, and the mainsail was renewed in 2021. A bow thruster makes maneuvering effortless even in tight harbors, and the electric windlass allows for easy anchoring.

While the Finngulf 41 emphasizes excellent sailing performance, it also offers remarkably comfortable and livable interior spaces. It features three cabins, one head with a shower, an open saloon with an L-shaped galley, and cozy materials that make the crew feel right at home—even at the dock.

Price: 169.000€, EU VAT paid

Location: Parainen, Finland

Measurements:

Hull length: 12,50m

Beam: 3,86m
