

Jeanneau Sun Odyssey 379 Performance, 2012

Sun Odyssey 379 Performance combines all the features that have made Jeanneau's Sun Odyssey line such a success: modern design, excellent sailing performance, and comfortable living spaces. This particular boat is being sold by its first owner and has been meticulously maintained with great care and love.

Sun Odyssey offers enjoyable and comfortable sailing for family crews, while the modern hull shape and moderate displacement also provide impressive performance potential. In addition to the standard sail set, the boat comes equipped with a nearly unused Code 0 sail that adds an extra thrill to your sailing experience.

The interior is spacious and full of natural light, making life on board comfortable. Three cabins with doors provide ample space for six adults, and the saloon sofa can be converted into an additional berth if needed.

The large bathroom includes a separate shower with a door for added convenience. The saloon is perfect for relaxing evenings, and in good weather, you can enjoy meals around the cockpit's folding table.

This well-equipped boat offers modern comforts and pleasant sailing characteristics — ready for new adventures without delay!
