

## **Aquador 25 C, 2005**

A premium hardtop cabin boat powered by the robust Volvo Penta D4 210 diesel engine—the perfect combination of luxury, performance, and reliability.

Ideal for both leisurely cruises and brisk sea runs. Comfortable amenities and ample cabin space make it perfect for short getaways or extended stays. Fully equipped with essential navigation tools and safety gear for peace of mind on the water.

The boat has a beautiful interior with cherry wood and amenities such as power steering, autopilot, trim tabs and bow thruster to make cruising and docking as effortless as possible while still offering comfortable space for 8 people.

A thorough inspection was done in 2024 and everything that needed replacing or restoring has been done. For example, the cabin floors were replaced with HPL laminate, the toilet bowl has been changed, full engine maintenance (belts, rollers, filters etc.) and many more things have been done so that additional investments are not needed.

Will be sold together with safety equipment (life jackets, fire extinguisher, ropes, fenders etc.)

Max speed 32 knots. Very economical, consumes 25l per hour with a cruising speed of 23 knots. Structured for immediate sailing—no hidden upgrades or maintenance needed.

### **Location:**

Lohusalu, Estonia

### **Measurements:**
