

Targa 30.1, 2017

Targa 30.1 is a highly seaworthy boat built to withstand even demanding use, making it ideal both as a commuter boat and for cruising. This model offers an excellent balance between livability and compact size. This particular vessel, sold by its second owner, is in truly excellent condition. It has been carefully maintained and well equipped throughout its life. During winters, the boat has always been stored in a heated indoor facility, and a full service and equipment history is available.

Like all Targa boats, this model is high-quality, practical, and easy to handle. Its handling characteristics are solid and confidence-inspiring, with a hull that cuts smoothly through waves thanks to its deep-V design. Fuel consumption at cruising speed is moderate, approximately 1.8 L per nautical mile. A bow thruster makes maneuvering easy.

The boat comfortably accommodates up to five people overnight. The galley is practical, and the aft toilet/shower compartment is rather generously sized. In fair weather, the living space can be extended to the deck, where you can dine comfortably around the cockpit table.

The boat is fully ready for the upcoming boating season and immediate use.

Location: Turku, Finland

Measurements:

Hull length: 10,08m

Beam: 3,25m

Draught: 1,10m

Displacement: 5500kg
