

X-Power 33C (2026)

X-Power 33C is a modern high-performance sports cruiser combining Scandinavian design, advanced epoxy vacuum-infused construction and outstanding handling. Powered by a Yanmar 8LV 370 HP diesel engine with sterndrive, the boat delivers impressive performance and efficient cruising. The spacious cockpit with premium seating, Flexiteek decking and sunbed conversion creates an ideal environment for relaxation, while the stylish cabin with modern navigation electronics and comfort features makes the X-Power 33C perfect for fast day trips and comfortable weekend cruising.

New build

The boat is VAT deductible

Location: Haderslev, Denmark
