

Delta 34 SW, 2013

Delta 34 SW is a Scandinavian-styled motor yacht built by the Swedish Delta Powerboats. It is especially known for its modern design and high-quality finish. Delta is perfectly suited as a commuter boat for longer passages or as a comfortable cruiser. This particular boat is in excellent condition and, with its good level of equipment, is ready for a new owner. In terms of handling, Delta is often described as light and sporty. Its narrow, deep V-shaped hull cuts through waves efficiently, providing a smooth and enjoyable ride even in more demanding conditions. The engine delivers strong performance while maintaining reasonable fuel consumption. The forward cabin comfortably accommodates two adults in a double berth and also features a spacious head. The saloon offers an open and airy atmosphere, and the galley is well equipped. The aft cabin provides a lot of storage space, and a curtain can be drawn in front of the berth to ensure privacy.

Location: Turku, Finland

Measurements:

Hull length: 10,3m
