

Hallberg Rassy 312, 1986

Hull number: 444

This boat has been in the same ownership for a long time and is technically in very good order. A new engine has been installed, and the boat presents excellent condition overall. The teak deck has been carefully inspected: the teak planks remain thick with ample material for future sanding, and there are no visible screw heads. The deck feels solid beneath the teak; however, several teak planks have come loose from the bonding and should be re-bonded to the deck. In addition, the deck caulking appears to be due for renewal. These items have been considered in the asking price.

This boat is located in the boatyard at the Taalintehdas, Finland
