

Nordkapp Enduro 605 Ranger, 2017

Nordkapp Enduro 605 Ranger with aluminum hull – excellent condition

A clean and exceptionally well-maintained Nordkapp Enduro 605 featuring a durable aluminum hull. The boat has seen light use, and both the hull and interior are in excellent condition throughout.

The aluminum hull makes the boat solid, quiet, and easy to own. It is highly resistant to beaching and perfectly suited to Nordic conditions, offering noticeably better durability and peace of mind compared to the fiberglass version.

Powered by a **Evinrude 150 E-TEC** with only slightly over 160 running hours. This engine is very powerful, fuel-efficient, and low on hours—an excellent match for the Enduro 605, delivering strong performance with economical operation.

Measurement

Length 6,06 m

Beam 2,2 m

Draught 0,9 m

Dry weight 915 Kg

Fuel tank capacity: 140 liters

All the equipment listed in, are working and will be verified at the time of handover to the new owner.
