Princess V52, 1997

Princess V52 is a sporty yet luxurious motor yacht. It is exceptionally well suited as a cruising vessel: the handling is excellent, and the interior spaces are comfortable enough for extended stays on board. This particular boat has been extensively updated and refurbished in recent years, including new propellers, navigation system, heater, and batteries. The boat has been stored in a heated indoor facility during winters and is in good operating condition, ready for a new owner.

Princess is a pleasure to drive, with a hull that cuts smoothly through the water. Bow thruster assistance makes harbor maneuvering easy. At the same time, it delivers a fun and sporty driving experience.

The saloon and cockpit form a unified social area, ideal for relaxing and entertaining. The galley is well equipped, making it easy to prepare meals even for a larger group. Numerous hull windows bring in plenty of natural light, enhancing the sense of space. The cabins offer generous living and storage areas, ensuring comfort on board.

Location: Turku, Finland

Measurements:

Hull length: 16,4m

Beam: 4,22m

Draught: 1,09m
