

Grandezza 33 OC, 2014

Grandezza 33 OC is a high-quality Finnish premium cruising motor yacht. The model has received widespread praise for its Scandinavian practicality, combined with elegant Mediterranean-inspired styling.

This particular boat is being offered by its original owner and has been meticulously maintained throughout its life. It has always been stored indoors in a heated facility during the winter months, and the engine has been serviced regularly by an authorized Volvo Penta service center. The engine has logged only 235 running hours. The boat is currently stored indoors and is fully prepared for launch and the upcoming boating season.

Grandezza's well-designed interior makes it ideal for longer cruising trips. Two separate cabins provide comfortable accommodation for two couples or a family. The enclosed cockpit with a sliding sunroof significantly extends the living space, while the well-equipped galley makes it easy to prepare meals and enjoy time with family and friends in comfort, whether underway or at anchor.

Location: Turku, Finland

Measurements:

Hull length: 10,03m
