**Askeladden C83 Cruiser, 2019**

The Askeladden C83 Cruiser is a modern, premium-quality day cruiser that combines excellent handling, stylish Scandinavian design, and practical onboard living. This exceptionally well-maintained 2019 example has been carefully looked after, stored in a heated indoor facility during the winter seasons, and serviced regularly by an authorised Mercury dealer. The low-hour Mercury Verado 350 hp outboard delivers impressive performance and reliability, and received a comprehensive 300-hour service in March 2026.

Perfectly suited for both day trips and extended cruising in the archipelago, the C83 Cruiser offers generous living space and excellent comfort. The spacious cockpit features a large U-shaped seating area with a dining table accommodating up to eight people, while the well-equipped galley includes a Wallas cooker, refrigerator, and sink. Below deck, the comfortable cabin provides sleeping accommodation for four, and the separate toilet compartment with shower adds convenience for longer stays on board.

Handling is effortless thanks to the Mercury Active Trim system, ZIPWAKE dynamic trim control, and a large chartplotter. All onboard systems—including lighting, pumps, and heating—are conveniently operated via an electronic control panel. With its extensive equipment, efficient diesel heating, and meticulous maintenance history, this Askeladden C83 Cruiser is fully prepared for its next owner to step aboard and enjoy.

**Location:** Taivassalo, Finland

**Technical Specifications:**

- Year: 2019
- Length: 8.30 m
