Axopar 28 Aft Cabin, 2018

Axopar 28 AC is a high-quality, sporty motorboat from a well known Finnish boatbuilder Axopar Boats. The boat is particularly well suited to island-hopping in archipelago and trips of a couple of nights. The hull offers precise and comfortable handling, and the boat handles bigger waves with confidence, performing well in a range of conditions. The engine has only 368 hours, with reasonable fuel consumption. The boat is being sold by its first owner, who has maintained and equipped it carefully and stored it in a heated indoor facility during the winter time. The spacious cabin offers excellent all-round visibility and the opening canvas roof adds the sense of space. The aft cabin comfortably accommodates two adults, and there is a WC in the bow. Comfort on board is ensured by a refrigerator, cooking plate and heater.

Location: Turku, Finland

Measurements:
