Hanse 350 (2008)

The Hanse 350 is a modern and well-balanced cruising yacht, combining excellent sailing performance with a bright and spacious interior. This 2008 example has been carefully maintained and extensively upgraded over the years, including a new WB jib, Harken furling system and forestay, B&G navigation electronics, Eberspächer heating and a Flexofold folding propeller. With comfortable accommodation, practical equipment and an easy-to-handle sail plan, she is well suited for both relaxed family cruising and more performance-oriented sailing.

GENERAL

- Hull material: GRP
- Hull colour: White
- Length: 10.59 m
- Mast height: 16.43 m
- Beam: 3.55 m
- Displacement: 5,800 kg
- Fuel tank: 110 L
- Fresh water tank: 240 L

ENGINE & PROPULSION

- Yanmar 3YM20
- 20 hp
