

Predator 447 – Ultimate Scandinavian Offshore Performance

The **Predator 447** represents the very pinnacle of Scandinavian offshore performance. Designed and built in Norway, this exceptional high-performance powerboat combines uncompromising build quality, advanced composite construction, and breathtaking performance rarely found in today's market. Powered by **twin Mercury Racing QC4V-1350** engines delivering an incredible **2,700 horsepower**, the Predator 447 reaches a manufacturer-rated top speed of **118 knots**, making her one of Europe's most desirable offshore performance boats.

This **2017** example has been professionally maintained from new and benefits from a comprehensive engine service history. Both engines have been rebuilt by the renowned **TNT Miami**, with detailed documentation available. She is equipped with an impressive specification including **Mercury Racing Surface Drives**, **Livorsi DTS electronic controls**, **Livorsi SmartCraft GPS instrumentation**, **Mercury K-Plane digital trim tabs**, full hydraulic steering, and a **CMI high-performance exhaust system**. Comfort has not been overlooked either, with accommodation for four, a separate head compartment, a premium J&L Marine sound system, and the original **2017 MYCO MWA43 trailer** included in the sale.

Built using advanced **vacuum-infused composite construction** with **Kevlar**, **carbon fibre reinforcements**, **Vinylester resin**, and a **Divinycell core**, the Predator 447 offers exceptional strength, reduced weight, and outstanding offshore capability.

Examples of this calibre rarely become available. Combining documented professional maintenance, world-class performance, premium equipment, and legendary Scandinavian craftsmanship, this Predator 447 presents a unique opportunity to acquire one of Europe's finest offshore performance boats.

Location: Arendal, Norway

Technical Specifications:

- **Year:** 2017
- **Model:** Predator 447
- **HIN:** NO-PRE46001H617
- **Length:** 14.03 m
- **Beam:** 2.71 m
- **Draft:** 0.95 m
- **Weight:** 7,200 kg
- **CE Design Category:** C
- **Fuel Capacity:** 1,450 L
- **Fresh Water Capacity:** 40 L
- **Sleeping Capacity:** 4 persons
- **Maximum Passengers:** 7

Engines:

- **2 × Mercury Racing QC4V-1350** gasoline engines
- **Power:** 2 × 1,350 hp (2,700 hp total)
- **Engine Hours:** Approx. 330 h
- **Drives:** Mercury Racing Surface Drives

Trailer:

- **MYCO MWA43**, model year 2017

Equipment:

- Mercury Racing Surface Drives and propellers
- Livorsi DTS electronic controls
- Livorsi SmartCraft GPS instrumentation
- Mercury K-Plane 380S digital trim tabs
- Full hydraulic steering
- CMI high-performance exhaust system
- Heavy-duty dual water pick-up cooling system
- SeaFire automatic fire suppression system
- Electric engine hatch
- Automatic bilge pumps
- LED engine room lighting
- Offshore bolster seats
- J&L Marine sound system
- Premium stainless steel hardware
- Helly Hansen cockpit cover
- Spacious cabin with four berths
- Separate head compartment

Construction:

- Vacuum-infused composite construction
- Kevlar and carbon fibre reinforcements
- Vinylester resin
- Divinycell core construction
