

Sea Ray Sundancer 275 year model 2008

This Sea Ray Sundancer 275 is in exceptionally clean condition and has been very well cared for. It is equipped with the sought-after Yanmar 315 hp diesel engine – economical, reliable, and one of the most value-retaining power options for this model. The boat has been stored in a heated indoor facility during recent winters, which is clearly reflected in the condition of the mechanics, upholstery, and interior surfaces. Everything works as it should, and the boat is fully ready for use without any additional investments.
