

SWAN 44 MK1 BY GERMAN FRERS, YEAR 1990/91

Swan 44 MK1 – designed by the renowned Germán Frers and built by the world-famous Nautor, this yacht is a high-performance and timelessly beautiful sailing boat. Its classic, elegant hull combines performance with seaworthiness, while the modern windows complete the stylish appearance.

The yacht is offered by a long-term owner who has taken excellent care of her and spared no expense in upgrading and maintaining her. She has been used for cruising and has been extensively improved and updated over the years. Special attention has been paid to making her easy to sail, even with a shorthanded crew.

Below deck, the interior is both spacious and inviting, with Nautor's signature top-quality craftsmanship in the woodwork. She comfortably accommodates a crew of nine in three separate cabins. The galley is large and well equipped, featuring a refrigerator, cooker with oven, extractor fan, and generous storage space. The Swan 44 sails beautifully in both light and heavy winds, and her balanced helm makes sailing a true pleasure. This is undeniably a beautiful, high-quality yacht built to stand the test of time.

Location:

Helsinki, Finland

Measurements:

Length: 13,40m

Beam: 4,19m

Draught: 2,50m

Mast height: approx. 19m

Displacement: 10.800kg

Hull:
